

Peppery Pampering

Luxury developments are popping up all over the country at the moment, but few can rival the five-star Pepper Club Hotel in Cape Town, replete with a Camps Bay extension in the form of an elegant restaurant on the glamorous beach promenade.

Understated, but exquisite finishes, a 24-hour concierge service and a panoramic rooftop swimming pool are all part of the R400 million hotel development that opens in March.

The penthouse, with sweeping views of Table Mountain from floor-to-ceiling glass panels, will take your breath away. Developer Solomon Brothers Property Holdings aims to cater for discerning business clientele and will operate the Pepper Club as a hotel residence.

The Pepper Club on the Beach opened in December and is ideal for cocktails or sumptuous, sun-splashed meals.
